PROFILE SUMMARY

Passionate Full Stack Developer skilled in Flutter, Svelte, and GraphQL. Loves building clean, fast, and responsive apps that deliver great user experiences.Enjoys solving complex problems and turning ideas into reliable digital products.Hands-on in API design, app performance tuning, and modern UI implementation.Eager to contribute to impactful projects that blend creativity and technology.

WORK EXPERIENCE

Brewszila Technologies Pvt. Ltd.   2025 - PRESENT

Mobile App Developer

- Led the end-to-end development and deployment of cross-platform mobile and web applications using Flutter, Svelte, and GraphQL, enhancing overall performance and user experience.
- Implemented scalable architecture and efficient API integrations, streamlining data flow across multiple modules for smooth functionality.
- Collaborated with cross-functional teams to design and deliver intuitive, high-quality interfaces aligned with business goals and user needs.

PROJECTS

Brewszila App

- Developed a cross-platform mobile application using Flutter, delivering a seamless and engaging user experience across Android and iOS.
- Integrated GraphQL APIs for dynamic data handling, improving responsiveness and real-time updates throughout the app.
- Designed and optimized modular UI components, enabling scalable development and consistent design across multiple features.

Brewszila CMS (Content Management System)

- Developed a Svelte-based web dashboard to manage outlets, menus, documents, and user data through a clean and responsive interface.
- Implemented GraphQL integrations and modular services, ensuring secure and efficient data operations across multiple module.
- Enhanced admin workflows with real-time validations, file uploads, and automated syncing, improving overall system usability and reliability.
